M15A2

The MJ Full CNC Tripod System is engineered for professional broadcast and studio applications whereprecision, stability, and reliabilityare non-negotiable. Manufactured entirely usingfull CNC machining, every component is produced with micron-level accuracy, ensuring exceptional consistency and structural integrity.

FEATURES

1. Full CNC Machined
2. ConstructionDamping Plate
3. StructureSmooth & Reliable
4. OperationBroadcast-Grade Load
5. CapacityLong-Term Durability

CONFIGURATION

1. M15H, hydrulic head made
2. PL15, quick release plate
3. Each 2 pieces of 3/8" and 1/4" screw
4. PB12, single telescopic pan bar
5. AT162, aluminum tripod
6. MB100, padded bag

SPECIFICATION

1. Bowl Size 100mm,
2. Horizontal/Vertical Damping 8 Level,
3. Dynamic Balance 10 Level,
4. Height Range 82-178cm,
5. Payload Range 3-15Kg,
6. Net Weight 6.89Kg,
7. Tilt Range: -80° to +90°
8. Pan range: 360°
