M30A

This is a full CNC Pan tilt head plus full CNC tripod heavy duty tripod system. Different with mold tripod system, CNC tripod system has advantage like precision, intensity long life time and less maintenance. Up to 16 x 2 grade counterbalance grades make the operators have fine and smooth operations. 30kgs payload can upload studio camera and prompter easily.

FEATURES

1. Full CNC Machined
2. ConstructionDamping Plate
3. StructureSmooth & Reliable
4. OperationBroadcast-Grade Load
5. CapacityLong-Term Durability

CONFIGURATION

1. MC30H, Full CNC hydrulic head
2. V type release plate
3. Each 2 pieces of 3/8" and 1/4" screw
4. PB30, dual telescopic pan bar
5. AT221 aluminum tripod
6. MB200, padded bag

SPECIFICATION

1. Bowl Size 100mm
2. Horizontal/Vertical Damping 10 Level
3. Dynamic Balance 16 x 2 Level
4. Height Range 97-161cm
5. Payload Range 6-30Kg
6. Net Weight 10 Kg
7. Tilt Range: -80° to +90°
8. Pan range: 360°
