M45C

This is a full CNC Pan tilt head plus full CNC tripod heavy duty tripod system. Different with mold tripod system, CNC tripod system has advantage like precision, intensity long life time and less maintenance. Up to 16 x 2 grade counterbalance grades make the operators have fine and smooth operations. 45kgs payload can upload studio camera and prompter easily.

FEATURES

1. Full CNC Machined
2. ConstructionDamping Plate
3. StructureSmooth & Reliable
4. OperationBroadcast-Grade Load
5. CapacityLong-Term Durability
6. 100% carbon fiber materails

CONFIGURATION

1. M45CH, Full CNC hydrulic head
2. V type release plate
3. Each 2 pieces of 3/8" and 1/4" screw
4. PB40, dual telescopic pan bar
5. CT221 100% carbon fiber tripod
6. MB200, padded bag

SPECIFICATION

1. Bowl Size 150mm/Flate base
2. Horizontal/Vertical Damping 10 Level
3. Dynamic Balance 16 x 2 Level
4. Height Range 97-161cm
5. Payload Range 5-45Kg
6. Net Weight 12 Kg
7. Tilt Range: -80° to +90°
8. Pan range: 360°
