M60H

This is a full CNC heavy duty Pan tilt head. Different with mold tripod system, CNC Pan Tilt Head has advantage like precision, intensity long life time and less maintenance. Up to 16 x 2 grade counterbalance grades make the operators have fine and smooth operations. 60kgs payload can upload studio camera and prompter easily.

FEATURES

1. Full CNC Machined
2. Construction Damping Plate
3. Structure Smooth & Reliable Operation
4. Broadcast-Grade Load Capacity
5. Long-Term Durability

CONFIGURATION

1. M60H, Full CNC hydrulic head
2. V type release plate
3. Each 2 pieces of 3/8" and 1/4" screw
4. PB60, dual telescopic pan bar

SPECIFICATION

1. Pan range: 360°; Tilt Range: -80° to +90°
2. Instant responsiveness from perfect balance
3. Support prompter
4. LED levelling bubble
5. Bowl Size: 150mm or Four-bolt flat with Quickfix
6. Camera Plate Fixing: V type way sliding plate
7. Counter Balance: Adjustable metal damping plate structure
8. Drag: Drag system with backlit and calibrated balance
9. Flat Base: Four bolt flat with quick fix
10. Par Bar Type: Telescopic
11. Payload: 15 kg to 60 kg
